Fears of Heavy Damage in Kansas and Nebraska-All Wires Down-A Disastrous Cyclone Reported From Nebraska.

DENVER, Apri. L.-Owing to the prostration : of wires on a. the different routes east of this city no news can be had from the towns in the path of the storm that passed over western Nebraska and Jansas early last evening. It is feared the wind took the shape of a cyclone. In started in Neoraska just north of the Bur ington and Missouri railroad, taking everything in its park. Passing over that road at 6 p. m. it proceeded in a southeastern direction and crossed the Kansas Pacific and Rock Is and roads an nour later as a point east of Ellis. At 9 p. m. it reached the Santa Fe road east of Dodge City. Until te egrap i communication is restored it will be impossible to tell the exact camage cone to property in the storm's path or whether any lives were lost. Great fears are enter be ing him to stop the train 500 feet away tained for the inhabitants in that section.

REPORTS CONFIRMED. Cincoln, Neb., Maren 31,-Confirmed reports have reached this city that a cyclone struck the town of Ne son, wrecking it bac y. Sagar in C ay county is also said to be damaged. The depot was blown down and two men killed. Wires are down and it is impossible to get anything from that section. The storm evidently traveled in a northerly direction. Specials from Wahoo and Norfolia teli of unusual severity there. A number of houses being blown down, but no ser. and Ragman Quincy Adams was wounded. ious camage resulting. In this peality the . wind has blown a gale at this afternoon and was a white man and the postal clerk says evening and was followed by a heavy rain.

Argument in the Motion for a New Trial for Lawton.

In the district court Saturday the case of Jack Bagan, charged with the arceny of a watch at Cripple Creek was heard by the jury, and a verdiet of gui, Jy rendered.

Information was fled against one Lee Gray, charged with rape, in that he was living with a gir. under 16 years of age.

At 2 o'clock Judge Campbell heard the argument for the motion in a new trial for Thos. Lawton, convicted of the mur-Chinese persons and their right to remain in presence for new Aydrants near the Lowe | Ger of John A. Heming, the street car motorneer. Attorney Brinson, counselfor the defense, opened the argument and spoke for about two hours. Among the Jizzes; scoops spat the Encuirer ever on conviction shat be punished by a fine of plans for a city fall was referred to she points which the defense raised as reason for a new trial were the following:

Piret-That curyman Auld is an alien, being a resident of Canada.

Second-That the admission of Witto disim that Lawton did the killing was

Third-That the instructions that Lawton a though indicted as a principal to the killing could be convicted as an

Fourth-That the instructions as to the Cifference of murder in the first and second degree were eroneous.

Attorney Chanler, wiso has recently been admitted in the case, followed Mr. Brinson, speaking out a short time. The points ae raised were that Lawton's testimony given at the preliminary trial should not have been admitted; also that the testimony regarding Lawton's reading cime nove s was not admissable.

District-attorney Courran spoke for Te spent the time largely in choting from decisions to controvert the points raised by defendant's attorneys.

Judge Campbel Took the argument would give his decision next week.

A Monkey's Linguistic Achievement.

In one room where one monkeys are kept ly a cealer in Washington here is a cage same soe fand in an aclacent cage is the ite capucain Puck. They can easily see

and near each other through the open wire A. Cay and Y. Scott Carcott, sons of partition which separates them, there being no other obstruction. I have visited Puck for many weeks a most daily, and always supply him with food after requiring him to very say of me, I rarely showed him the signest attention until within the past few weeds, when conserved him trying to utter he capuchin sound for food, which a ways secured for Puck a banana or some nuts. Seeing that Puck was a ways rewarded for uttering this sound, the little water-nec for unate grunzare. \_ nac lopec, lowever, the same way, and have thus seen one mean; but practice has ceveloped in him This was doubly interesting to me in view the fact that I had long believed that no species.
